ASSIGNMENT 1

Develop a sample homepage with html, css which should include banner, image and describe yourself and contact form.

```html
<!DOCTYPE html>
<html lang="en">
<head>
    <meta charset="UTF-8">
    <meta http-equiv="X-UA-Compatible" content="IE=edge">
    <meta name="viewport" content="width=device-width, initial-scale=1.0">
    <title>Resume</title>
    <style>
        img{
            height: 100px;
            width: 100px;
        }
        *{
            margin:0px;
            padding:0px;
            color: white;
        }
        body{
            background-image:linear-gradient(to right top, #070537, #004187,
#007dae, #00b88e, #12eb24);
            display: flex;
        }
        .one{
            width: 50%;
            max-width: 1000px;
            min-height: 90px;
            background-color: #007dae;
            margin: 0px;
            display: grid;
            grid-template-columns:2fr 4fr;
        }
        .two{
            position: initial;
            padding: 55px;
        }
        .six{
            position: initial;
            padding: 100px;
            padding-top: 70px;
```
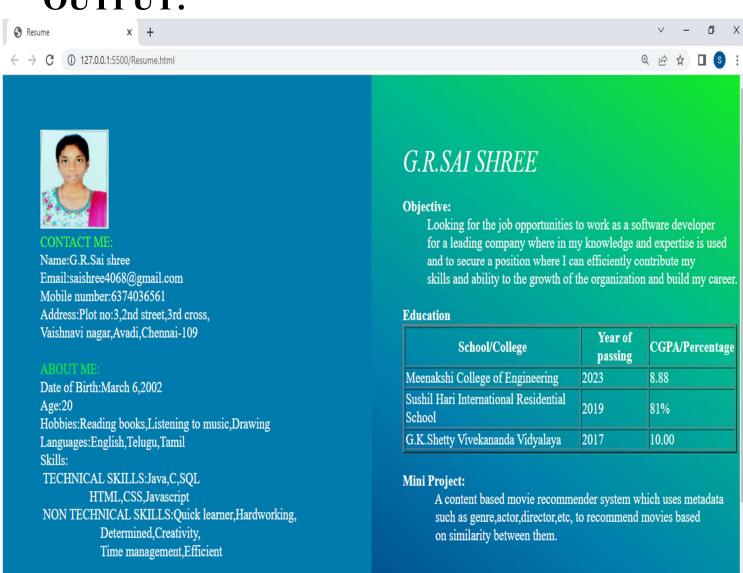

```html
        }
        pre{
            font-family: 'Times New Roman', Times, serif;
        }
        .name{
            font-size: 30px;
            font-style: italic;
        }
        .four{
            color: rgb(84, 252, 18);
        }
        .five{
            color: hwb(125 7% 8%);
        }
    </style>
</head>
<body>
    <div class="one">
        <div class="two">
            <div class="three">
                <img src="My photo.jpg" alt="My image">
            </div>
            <div class="four">CONTACT ME:
                <pre>

                    </tr>
                </tbody>
            </table>

        </div>
        <div class="project">
            <pre><b>
Mini Project:</b>
```

```
            A content based movie recommender system which uses metadata
            such as genre,actor,director,etc, to recommend movies based
            on similarity between them.
        </pre></div>
        </div>
    </div>
</body>
</html>
```

OUTPUT:

Create a responsive page for mobile as desktop.

```html
<!DOCTYPE html>

<html lang="en">
<head>
    <meta charset="UTF-8">
    <meta http-equiv="X-UA-Compatible" content="IE=edge">
    <meta name="viewport" content="width=device-width, initial-scale=1.0">
    <title>Responsive page</title>
    <style>
        body{
            background-image:linear-gradient(to right top, #f60c9b, #ff007c,
#ff005c, #fc003b, #f20813);
            background-repeat: no-repeat;
            height: 500px;
            color: white;
        }
        @media only screen and (min-width:800px) {
            .one{
                width: 600px;
                margin: 0 auto;
            }
            h1{
                padding: 20px 0px 0px;
            }
        }
    </style>
</head>
<body>
    <div class="one"> <br>
        <h1 style="font-family: Arial;"><center>REGISTRATION
FORM</center></h1><br>
        <form action=""><center>
            <label for="">FIRST NAME</label>
            <input type="text" name="firstname" id="1" placeholder="First
name"><br><br>
